

GAIN CONTROL OF YOUR ENERGY.

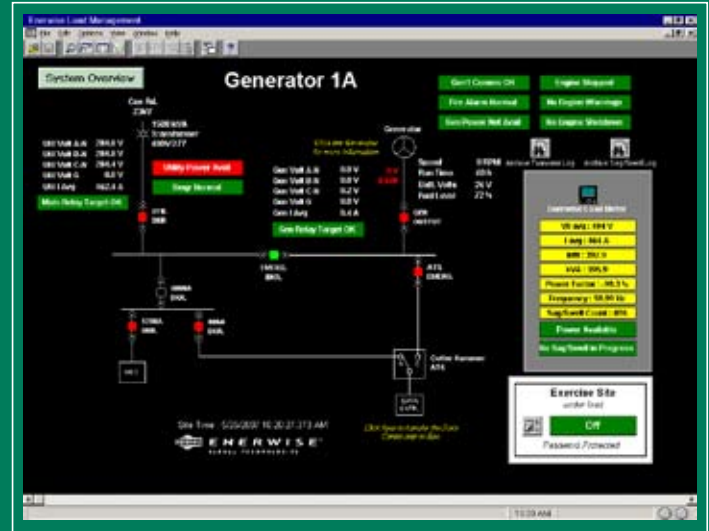

With energy costs constantly on the rise, making smart business decisions regarding operational costs can be difficult. Load Management Marketplace software from Enerwise transforms the control of idle energy assets into revenue-generating opportunities by capitalizing on the volatility of the energy market. Planning your energy consumption has never been easier and more productive than with Load Management Marketplace.

Features

- Automated posting of day-ahead and hour-ahead pricing
- Transactional platform that allows
 - Bid notification
 - Economic value calculations
 - Customer participation election
 - Supplier's bid acceptance/rejection
- Benchmark load certification
- Load curtailment and payment amount verification

Load Management Marketplace allows you to maximize your energy consumption planning by using automated notifications of energy price signals. Multiple site aggregation allows you to optimize your participation in as many curtailment opportunities and locations as possible, resulting in maximum financial benefits. Capitalize on revenue-generating opportunities and ultimately save energy as well as money.

Let us help you manage your energy more effectively than ever before.

ABOUT ENERWISE

Enerwise Global Technologies, established in 1980, is a leader in demand-response, energy infrastructure management and renewable energy services for commercial, institutional and industrial customers. We enable customers to reduce energy costs, comply with increasingly demanding environmental regulations, take advantage of alternative power initiatives, increase operational security and improve reliability. We deliver responsive, well-tested energy solutions, ranging from remote power monitoring and control systems to energy history analysis and real-time demand-response solutions.

Our systems and staff work around the clock to make sure you're always running smoothly and efficiently. Other companies depend on us to solve their energy problems; let us help you with yours.
